

Student Comments from the Course Evaluation

Introduction to Thermal Science (ME3324)
Fall Semester 2003

“Hitoshi was an excellent instructor and will make a good professor. He has the ability to adjust to the students learning pace on a given topic.”

“He’s very organized in his web site, class room & feedback. He definite knows heat transfer. He’d make a great professor.”

“I enjoyed taking this class this semester. It was demanding for an introductory class but rewarding in the end. Hitoshi sincerely cares about his students.”

“He challenged me to consider new prospective and yet was willing to guide me with my work.”

“He has high respect for student differences. Excellent professor.”

“Hitoshi has great concern for the students. It’s great to have a teacher that really cares.”

“Haven’t had such a good teacher for a while.”
